

# Cheneau Light Brace

*Less bulky and keep correction with growth*

*AIS in the Chêneau light" brace, overcorrection of a thoracic curve from 38° to -14° Cobb in a T2.*

*The Cheneau light brace, which has been widely used in Europe for a number of years, is now available in Hong Kong. You may ask our certified Orthotist to prescribes this brace.*

*The brace is effective in holding down curve progression and provide correction with growth. It has huge cutouts front and back to allow for lung and rib cage expansion.*
