

# TURBO Tri-planar Control AFO

*Well control of foot/ankle complex in low profile design*

*Exceptional triplanar control with less contact, making it lighter and cooler.*

*Anterior shell control tibial rotation better. ML trimlines extend anterior stabilize the ankle. A long lateral forefoot trim limits forefoot abduction, and a well molded footplate comfortably orientate the foot complex. Outcomes are better than with any other design.. Comparable to carbon fiber AFOs but possesses adjustability and price point that comes with polypropylene.*

*Some very applicable diagnoses are: Posterior Tibial Tendon Dysfunction, chronic Achilles Tendinitis, Osteoarthritis, Chronic/acute Plantar Fasciitis, and more. This design is*
